

High School Summer Academy

Post University gives high school students a smart head start in Summer 2016.

This summer, high school students are invited to our main campus to take part in engaging, one-week-long programs in high-demand fields! They'll learn from professionals for an intensive, real-world exploration in exciting subjects.

Participating students even have the option to earn college credit through our coordinating online High School Academy courses.

Benefits of the Post University Summer Academy

- Active, hands-on activities
- Full-day programs including snacks & lunch
- Engaging guest speakers & experts from the field
- Take classes on our scenic campus
- The opportunity to earn 3 or more college credits

Summer Program Options

Environmental Explorers Academy

July 18 - 24

Study the local environment hands on and learn about sustainability.

Students can:

- Perform hands-on field investigations
- Enhance their understanding of ecological systems
- Study characteristics of an aquatic ecosystem
- Examine aspects of sustainability

Social Media Academy

July 18 - 24

Use your social media savvy to advance in a professional environment.

Students can:

- Become more media literate
- Learn the consequences of unprofessional social media use
- Discover ways to use social media for networking
- Find out how important it is to build a social media presence

Crime Scene Investigation Academy

August 1 - 5

Learn from the pros what it means to be Crime Scene Investigator.

Students can:

- Work with real police officers and other field experts
- Collect fingerprints and analyze crime scene photographs
- Process a crime scene with professional equipment
- Watch a live ballistics demo with a state-certified ballistics expert
- Have the option to earn college credit
